POSTROOM

Dear Sir or Madame.

I am writing to you about the proposed housing that they want to build at Hook Valley Farm Lawrence Hill Wincanton. We do not want anymore housing we all well over our Quota, and its leaving us with flooded roads, I have lived in Wincanton since 1958 and have never seen them flooded. till now, at the bottom of Town by Mac donalds. We have no green belt left, so this building must be stopped, We have no infrastructure for such a big development. Once I could look out of Bed room Windows and see Pooley green fields and cattle, now all I see is roof tops, nothing but a Concrete Jungle. no matter were you go in Wincanton there are houses going up, but no one seems to know, when all these Plans was passed.

Please I ask you to look at all the Empty
Places in the town, to be worked on, and
give us our Town back, there is so much History
here, but its beginning to disappear, all down
to greed of Housing developers, which Must be
stopped, and think of the people who have
always lived here, and loved

Yours truly
